

FIRST STEPS TO NEW FRIENDSHIPS

FORM EARLY CONNECTIONS

Birth to age seven are especially exciting years when brain architecture begins to develop, laying the ground work for early language skills and the higher cognitive functions that follow. Giving your child Kindermusik® means giving them the opportunity to grow and flourish.

WITH YOU EVERY STEP OF THE WAY

Kindermusik programs and educators bring parents along for the journey, handing you the tools and knowledge to create fun, lasting bonds between you and your child. Each licensed Kindermusik educator is certified through Kindermusik University and has undergone rigorous training in play, practice, and pedagogy.

“I’ve watched my daughter develop a love for music and the ability to play instruments. She has expanded her vocabulary, learned creative problem-solving skills, acquired sign language, and met new friends.”

— Kindermusik Mom

For three generations, Kindermusik has helped millions of children around the world build a strong foundation for a lifetime of learning.

Using research-based musical curricula, we engage your child’s mind and senses during the years most critical to brain development.

Kindermusik

LET IT BEGIN WITH

MUSIC THAT CREATES MAGIC

Engaging musical experiences to help your child grow cognitively, emotionally, physically, and socially.

MOVE ALONG

Stimulating, fun experiences perfectly balance with relaxing, bonding moments in classes for our youngest learners. It all flows seamlessly through our research-based activities focused on appropriate early childhood interactions...with music at the center of all sorts of learning!

Watch your child gain new skills and grow in confidence with each new level.

As your high-energy toddler moves, laughs, and plays throughout a music class, lots of other important things are happening. Toddlers learn to focus and practice self-control, to listen and to play with language, to notice and accept routines, and to enjoy calm, relaxing moments along with fun, playful experiences.

LET IT BEGIN WITH
Kindermusik

Vocal play activities such as, call and response teach musical skills as well as expressive language development. Instrument exploration, more advanced movements, and learning to take turns help your older toddler build important preschool skills.

The preschool child's incredible creativity is the basis for this imaginative class. Level 3 skills focus on musicianship and working cooperatively in a group for movement and instrument ensembles. It's the perfect introduction or complement to your child's preschool education, in an intimate class setting where your child will receive individual attention in a nurturing environment.

First experiences with musical symbols and more advanced instruments lay the groundwork for formal music instruction and ensure school readiness. You'll join the fun for the final activities and watch as your child begins to master music terms and concepts, building a strong foundation for learning.

KINDERMUSIK IMPACTS ALL LEARNING DOMAINS

Cognition & Executive Function

Language & Literacy

Social-Emotional

Physical

Creative

Math & Logic

Children use music notation to play a variety of instruments and participate in ensembles, while developing problem-solving and pre-literacy skills. As children grow musically throughout Level 5, they also develop strong social-emotional and problem-solving skills.

Accommodating all levels of learning and musical ability, mixed-age classes are perfect for family bonding! Your Kindermusik educator will help you modify movement activities, group dances, and instrument-play activities for each of your children.

KINDERMUSIK HOME BRING THE FUN AND LEARNING HOME

Support your child's development at home and on-the-go! Kindermusik Kits* and Kindermusik Online extend the learning throughout the week, connecting the classroom to your family's everyday life. Anytime access to Kindermusik songs, stories, and activities.

*Kindermusik Kits vary by location.
